

Muhammad Ansyar Rafi Putra, MSc

Software Engineer · DevOps & Data Engineering

ansyar.work@gmail.com · Melbourne, Victoria, Australia · linkedin.com/in/ansyar · github.com/mansyar

Professional Summary

Highly motivated Software Engineer with a proven track record in software development, data engineering, and technical instruction. Experienced in building and maintaining production-grade systems across DevOps, data pipelines, and full-stack applications. Passionate about transforming complex requirements into elegant, maintainable solutions and mentoring the next generation of engineers.

Top Skills

Languages	Python, TypeScript, Go, Rust, SQL
Frontend	React, Next.js, Tailwind CSS, Astro, PixiJS
Backend & Data	Node.js, FastAPI, PostgreSQL, Apache Kafka, Redis, Elasticsearch
DevOps & Cloud	Kubernetes, Docker, GitHub Actions, Cloudflare, Alibaba Cloud
Tools	Git, Linux, CI/CD, Terraform, Prometheus, Grafana

Experience

Data Engineering & Analysis Instructor

2024 – Present

G2Academy

Deliver comprehensive training in data engineering, Python, SQL, and data pipeline design. Develop curriculum bridging academic theory with industry best practices, preparing students for real-world engineering roles.

Data Engineer

2024 – 2025

G2Academy

Designed and maintained ETL pipelines processing large-scale datasets. Built data warehousing solutions and automated reporting systems. Optimized query performance and reduced processing time by 40%.

DevSecOps Manager

2024

Tata Informasi Asia

Led DevSecOps initiatives integrating security into CI/CD pipelines. Managed infrastructure as code, container orchestration, and automated deployment strategies.

DevSecOps Engineer

2023 – 2024

G2Academy

Implemented Kubernetes-based microservices architecture. Automated deployment pipelines reducing release cycles from weeks to hours. Established monitoring and alerting systems.

Data Engineer

2023

G2Academy

Built data ingestion frameworks and transformation pipelines. Developed real-time data processing systems using Apache Kafka and stream processing.

Education

Bandung Institute of Technology (ITB)

Aeronautics and Astronautics

Lulea University of Technology

Master of Spacecraft Design

Certifications

ACP Cloud Computing Professional	Alibaba Cloud	Mar 2024 – Mar 2026
ACA Cloud Computing Associate	Alibaba Cloud	Feb 2024 – Feb 2026
